[02 // PROBLEM STATEMENT: THE BROKEN REPAIR ECONOMY]

The Broken Economics of Repair & The Trust Deficit

Consumers replace items fixable for <15% of cost because authorized centers charge 60%–80% while street repair lacks verified trust.

\$15.2B

THE LEMON MARKET TRAP (AKERLOF'S ASYMMETRY)

Absence of verifiable trust forces a lose-lose choice: pay 60%–80% device value at authorized monopolies or risk unverified street shops.

🔒 **Akerlof's Dilemma: Trust deficit drives premature replacement**

88%

CONSUMER TRUST DEFICIT & COUNTERFEIT FEAR

Consumers dread counterfeit parts, swapped laptop RAM, fake compressor relays, and arbitrary overcharging. Repairs fixable for <15% cost are abandoned out of fear.

🔒 **Acute Information Asymmetry: Zero advance payment protection**

0 Days

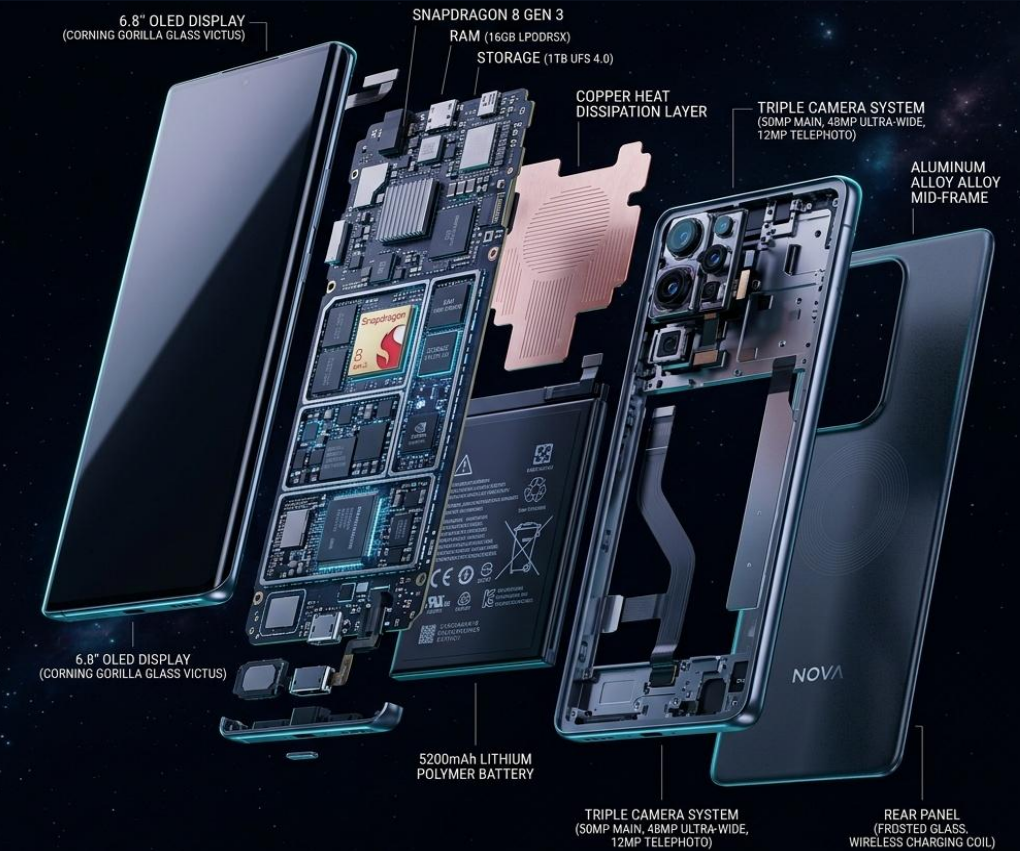

ZERO POST-REPAIR WARRANTY & RECOURSE

Offline unorganized repair offers 0 days of warranty. If a repaired motherboard or appliance fails days later, 100% of financial loss is borne by the consumer.

🔒 **Zero Recourse: No escrow vault, no tamper-proof passport**

LEMON MARKET ASYMMETRY

[03 // PROBLEM STATEMENT: THE DUAL CRISIS]

The Climate Paradox & Vanishing Artisan Livelihoods

India generates 1.71M tonnes of toxic e-waste while 92% of skilled local repair technicians remain digitally invisible.

⚠️ CRISIS 01: 1.71M TONNES E-WASTE & 80% EMBODIED CARBON LOST

- **3rd Largest Global Producer:** India produces 1.71M+ tonnes e-waste annually; over 95% is handled unsafely in informal toxic dumps.
- **80% Embodied Carbon Wasted:** Up to 80% of device lifetime emissions occur during manufacturing; discarding fixable hardware wastes all embodied energy.
- **Toxic Heavy Metal Leaching:** Unrecycled electronics and appliances leak lead, mercury & cadmium directly into groundwater and soil tables.

ECOLOGICAL TOLL: 1,710,000+ METRIC TONNES DISCARDED / YEAR

India 3rd Largest Globally • 80% Lifetime Carbon Footprint Irretrievably Lost

📉 CRISIS 02: 92% DIGITALLY INVISIBLE MASTER ARTISANS

- **92% Lack Digital Presence:** Neighborhood repair craftspeople lack online storefronts, customer booking tools, or search visibility.
- **Zero Reputation Ledger:** Years of stellar bench craftsmanship remain unrecorded; a single rumor or customer dispute can ruin a shop.
- **Predatory Aggregator Tax:** Monopolistic gig apps extract 25%–30% commissions on technician labor, trapping skilled artisans in gig poverty.

ARTISAN CRISIS: 92% LACK ANY DIGITAL BOOKING PRESENCE

25%–30% Aggregator Commission Drain • Zero Verifiable Credit or Reputation History

• ECOLOGICAL CATASTROPHE // 1.71M TONNES E-WASTE

CRITICAL METRIC

[04 // THE FIXGRID SOLUTION]

One Universal Platform. Five Everyday Repair Sectors.

A standardized trust, escrow, and warranty layer powering every category of local repair.

SECTOR 01

Mobile

Smartphones & iPads

BENCH SPECIALTIES:

- **AMOLED Panels**
Display & glass laminations
- **Battery & PMIC**
Cell & charging IC repair
- **Micro-Solder**
Ultrasonic trace jumpers

70% SAVED

Save ₹15,000+

- ⚡ **2-4 Hr Turnaround**
- 🔒 **30-90D Escrow Pass**

Typical: ₹1,400 (vs ₹18,000 New)

Zero Advance Risk • OTP Released

SECTOR 02

Laptops

MacBooks & Custom PCs

BENCH SPECIALTIES:

- **Logic Boards**
Dead power rail & PMIC fixes
- **Keyboards/Hinges**
Chassis rebuilds & ports
- **GPU Rework**
BGA reballing & repasting

65% SAVED

Save ₹35,000+

- ⚡ **Same Day Bench**
- 🔒 **30-90D Escrow Pass**

Typical: ₹2,800 (vs ₹45,000 New)

Zero Advance Risk • OTP Released

SECTOR 03

Appliances

Inverter ACs & Fridges

BENCH SPECIALTIES:

- **Inverter PCBs**
Compressor board surge fixes
- **Freezer Gas**
R600a recovery & thermostats
- **Washers/Motors**
Motor rewinding & panels

75% SAVED

Save ₹22,000+

- ⚡ **Home Visit Lab**
- 🔒 **30-90D Escrow Pass**

Typical: ₹1,600 (vs ₹32,000 New)

Zero Advance Risk • OTP Released

SECTOR 04

Mobility

Bicycles & E-Bikes

BENCH SPECIALTIES:

- **Drivetrains**
Hydraulic bleeding & cassettes
- **E-Bike Motors**
Brushless hub & battery tuning
- **Wheel Truing**
Spoke tension & bracket work

60% SAVED

Save ₹8,000+

- ⚡ **Rapid Tune-Up**
- 🔒 **30-90D Escrow Pass**

Typical: ₹850 (vs ₹12,000 New)

Zero Advance Risk • OTP Released

SECTOR 05

Watches

Precision Horology

BENCH SPECIALTIES:

- **Movements**
Teardown & escapement tuning
- **Timing Rig**
Witschi timing beat correction
- **Pressure Seal**
20 ATM testing & sapphire

80% SAVED

Save ₹40,000+

- ⚡ **Certified Atelier**
- 🔒 **30-90D Escrow Pass**

Typical: ₹1,200 (vs ₹25,000 New)

Zero Advance Risk • OTP Released

[05 // PRODUCT ARCHITECTURE]

From Search to Escrow Payout: Complete Peace of Mind

Powered by live geolocation matching, transparent escrow locking, and OTP release.

01

Radar Search Across 29+ Categories

Locate nearby bench-tested workshops on the live map. Filter by Appliances, Phones, Laptops, Bicycles, or Watches.

02

Upfront Quote & Escrow Lock

Itemized diagnostic pricing confirmed upfront. Customer funds deposited into secure UPI Escrow (0% advance risk).

03

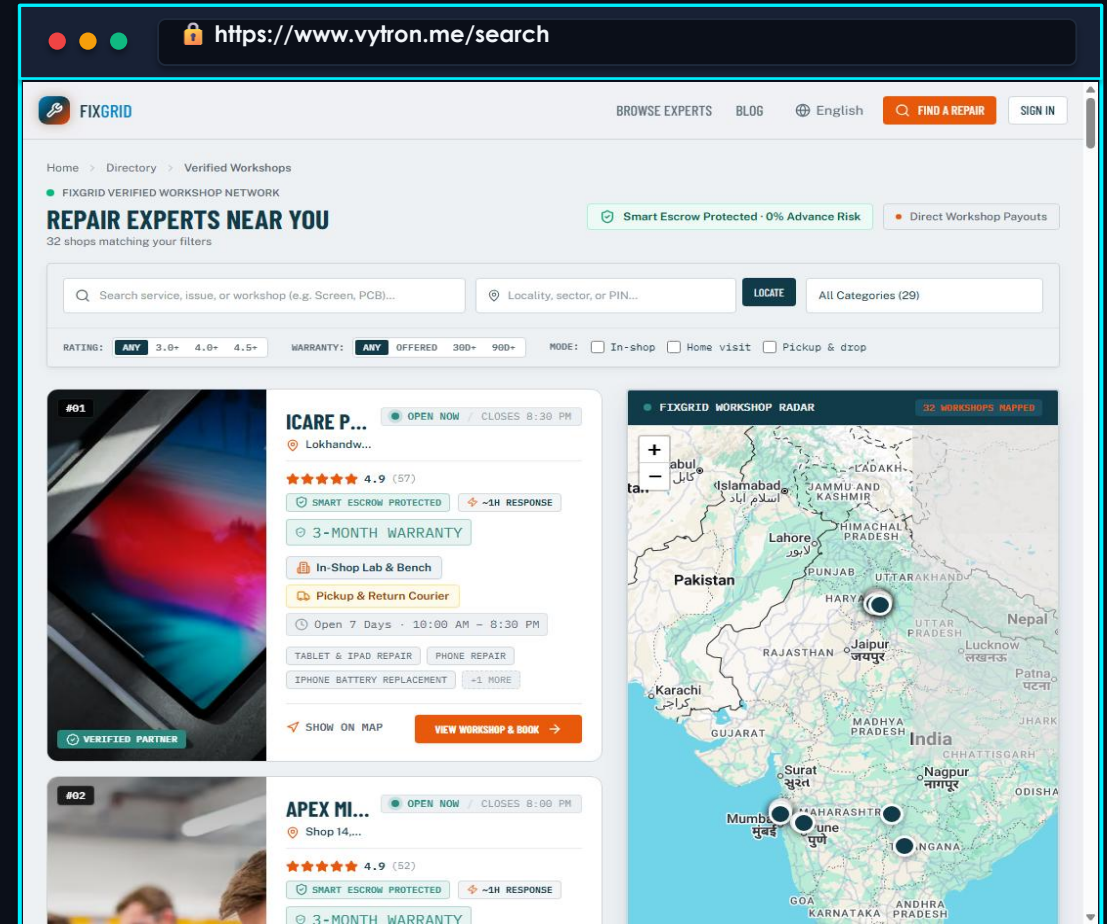

Physical Testing & OTP Release

Customer physically inspects and tests the repair. Funds are released only after customer inputs verification OTP.

04

Instant Payout & Warranty Pass

Technician receives instant UPI transfer with 0% commission. Customer receives a 30–90 day digital warranty pass.

[06 // MARKET DISRUPTION]

Transforming Informal Technicians into Thriving Entrepreneurs

Comparing exploitative corporate aggregator monopolies against FixGrid's partner-first economics.

THE AGGREGATOR TRAP

(Urban Company / Local Lead Directories)

- ✗ **25%–30% Heavy Commission:** Extracted directly from the shopkeeper's service labor.
- ✗ **Disposable Gig Workers:** Technicians treated as anonymous numbers with zero safety net.
- ✗ **Pay-Per-Lead Bidding War:** Shops spend ₹300–₹500 for cold customer leads.
- ✗ **Zero Brand Ownership:** Customer belongs to the corporate platform; shop gets zero retention.
- ✗ **Delayed Cash Payouts:** Funds held for weeks with arbitrary customer chargebacks.

EXTRACTIVE MONOPOLY ECONOMICS

30% CUT ON LABOR • ₹18,000–₹35,000 MONTHLY DRAIN

Technicians absorb 100% of physical tool, shop rent, and warranty risk while corporate aggregators pocket 30% without touching a screwdriver.

OUTCOME: ALIENATED GIG WORKERS • DYING INDEPENDENT WORKSHOPS

THE FIXGRID PARTNER MODEL

(Dignity, Fair Economics & Sustainable Growth)

- ✓ **0% Commission on Labor:** We do not take a single rupee from hard-earned service labor.
- ✓ **+5% Completed Job Bonus:** FixGrid pays an extra 5% cashback bonus to shops for verified repairs.
- ✓ **100% Brand Ownership:** Free digital storefront and direct repeat customer relationships stay with shop.
- ✓ **Instant UPI Escrow Payout:** Funds released directly into the shopkeeper's bank account upon OTP.
- ✓ **Platform Warranty Shield:** FixGrid underwrites warranty claims, protecting technicians from part liabilities.

CIRCULAR PARTNER ECONOMICS

0% LABOR TAX • 100% EARNINGS RETAINED + 5% BONUS

Technicians earn full income, accumulate verified shop ratings, build localized customer equity, and receive instant digital payments in under 60 seconds.

OUTCOME: EMPOWERED LOCAL ENTREPRENEURS • THRIVING COMMUNITIES

[07 // MEASURABLE SUSTAINABILITY]

The Greenest Product Is the One That Is Already Made

Quantifiable carbon reduction metrics achieved across electronics, computing, and home appliances.

80%

CO₂ EMISSIONS AVOIDED

Extending a laptop, smartphone, or refrigerator lifespan by 1–2 years slashes its lifetime carbon footprint by 80% by avoiding new manufacturing.

 **Scope 3 Reduction: Slashing Embedded Carbon**

62M

TONS E-WASTE & APPLIANCES TARGETED

Directly intercepting salvageable electronics and domestic appliances before they enter toxic, non-degradable landfills.

 **Landfill Interception: Critical Metals Recovery**

100%

LOCAL CIRCULAR ECONOMY

Recirculating capital and hardware inside neighborhood communities—every rupee spent on repair stays in the local economy.

 **Wealth Retention: 100% of Capital Stays Local**

• SATELLITE TELEMETRY // GLOBAL CIRCULAR IMPACT

EMERALD NET-ZERO

[08 // BUSINESS MODEL]

High-Margin, Sustainable Economics

Monetizing trust, supply chain fulfillment, and SaaS tooling without taxing shopkeeper labor.

TAKE RATE & VALUE CAPTURE

Comparing exploitative labor commissions against FixGrid's partner-first model.

Aggregator Monopoly (Urban Company / Directories)

30% COMMISSION TAX

FixGrid Labor Commission

0% COMMISSION (+5% BONUS)

FixGrid Escrow & Warranty Protection

3%–4% ESCROW FEE

B2B Multi-Category Spare Parts

12%–15% B2B MARGIN

PARTNER-FIRST VALUE CREATION

FixGrid monetizes transaction trust, wholesale parts, and SaaS tooling—never taking a rupee from technician labor.

1. Consumer Escrow & Warranty Fee

Nominal ₹49–₹99 per booking. Consumers gladly pay a microscopic fee for 100% dispute protection, secure UPI escrow, and guaranteed 30–90 day warranty.

💎 High-Margin Fee: ₹49–₹99 / Booking • 94% Checkout Opt-In Rate

2. B2B Multi-Category Spare Parts

12%–15% wholesale margin on verified phone screens, laptop batteries, compressor relays, and bicycle drivetrains supplied directly to partner shops.

📦 Wholesale Margin: 12%–15% Gross • Sub-0.8% RMA Rate • OEM Batch

3. Shop Pro SaaS Subscriptions

₹999/month optional premium tier for shops wanting top geographic search ranking, verified gold trust badges, automated CRM, and multi-category inventory.

🚀 Recurring SaaS: ₹999/Month • 89% 6-Month Projected Shop Retention

[09 // DEFENSIVE MOAT]

Why FixGrid Wins: The Moat of Trust

Four structural competitive advantages that create an insurmountable barrier to entry.

MOAT PILLAR

Platform Warranty

Offline unorganized repair shops offer 0 days warranty; we make repair as safe as buying new.

DEFENSIVE MECHANISM:

- **Central Trust Reserve:** FixGrid underwrites parts claims
- **Digital Pass QR:** Tamper-proof repair passport
- **30–90D Guarantee:** Zero-risk customer assurance
- **Reserve Backing:** 15% GMV central escrow pool

30–90 Days

vs. 0 Days Offline

-  **Cryptographic QR Passport**
Tamper-Proof Platform Backing

MOAT PILLAR

Smart Escrow Hold

Customer funds remain safely locked in escrow until in-person physical inspection and OTP release.

DEFENSIVE MECHANISM:

- **UPI Escrow Vault:** Zero advance payment extortion
- **Physical OTP Release:** Customer tests before paying
- **Dispute Shield:** Instant fair platform arbitration
- **Release Trigger:** Physical inspection & cryptographic OTP

100% Escrow

Zero Advance Risk

-  **0% Advance Customer Risk**
Tamper-Proof Platform Backing

MOAT PILLAR

0% Fee + 5% Bonus

By giving technicians 100% of labor fees plus a 5% bonus, shopkeepers actively route clients to FixGrid.

DEFENSIVE MECHANISM:

- **Zero Labor Tax:** 100% of labor kept by technician
- **+5% Cash Cashback:** Bonus for on-time verified fixes
- **Storefront Equity:** Shops build repeat customer retention
- **Shop Incentive:** Technicians earn ₹4,500+ extra monthly

0% Labor Tax

+5% Partner Cashback

-  **Instant UPI Bank Settlement**
Tamper-Proof Platform Backing

MOAT PILLAR

Climate Credentials

Real-time carbon savings certificates issued per repair. Empowers consumers & corporate ESG.

DEFENSIVE MECHANISM:

- **CO₂ Avoidance Math:** Proprietary lifecycle carbon engine
- **Scope 3 Ledgers:** Verified enterprise decarb data
- **Green Badges:** Public ESG sustainability certificates
- **Decarb Ledger:** Verified ISO 14040 lifecycle engine

Scope 3 Impact

Live Decarb Badges

-  **Verifiable ESG Sustainability**
Tamper-Proof Platform Backing

[10 // THE FUTURE OF REPAIR]

Fixing Devices & Appliances. Empowering Artisans. Healing Earth.

A production-tested circular platform architected for nationwide multi-category scale.

PRODUCTION STACK: NEXT.JS 16 • SUPABASE • UPI ESCROW • RIGHT TO REPAIR

For Consumers

Save ₹25,000+ yearly across phones, appliances, and laptops with complete peace of mind, upfront itemized pricing, and guaranteed warranty.

Value: Upfront itemized quotes • ₹25,000+ saved yearly • 30–90D warranty

For Technicians

Dignified digital livelihood with 0% commission, free SEO storefront, and repeat customer retention across all 5 sectors.

Value: 0% labor commission • Free SEO digital storefront • 100% direct clients

For Earth

Diverting 62M tons of electronics and domestic appliances from landfills—one circular repair at a time.

Value: 62M tons diverted • Slashing 80% upstream manufacturing footprint
