

HACKATHON 2026 PITCH

FixGrid.

The Trust Infrastructure for the \$15B Local Repair Economy

Transforming fragmented neighbourhood repairs into a verified, escrow-backed, and guaranteed service network.

Presenter: Rishit Jindal • Live Working Prototype

✓ 90-Day Guaranteed Warranty

Platform-backed legal protection on every completed repair job.

🔒 Smart Escrow Safety

Technicians are paid only after customer confirms device is working.

📍 100% Verified Local Experts

Multi-point background checks, GST registration & workshop audits.

PROBLEM STATEMENT

The \$15B Repair Market is Fundamentally Broken

Why 78% of consumers delay essential device and appliance repairs

0 DAYS

Zero Warranty & Zero Accountability

Consumers hand over ₹80,000+ smartphones and laptops with zero formal protection.

If a replaced screen or part glitches 24 hours later, the customer loses 100% of their money. Incumbents offer no transparent warranty on public pages.

The Price Haggling Trap

Arbitrary diagnostic inspection fees, unverified part markups, and aggressive on-site price changes force consumers into uncomfortable haggling.

Safety & Quality Anxiety

Consumers have zero standardized vetting for who is handling their private digital devices or entering their homes for appliance repairs.

PROPOSED SOLUTION

FixGrid: Trust as a Service

Turning independent neighbourhood repair shops into a trusted, guaranteed network

FOR CONSUMERS

Guaranteed 30–90D Warranty

- Mandatory warranty on every service
- Automated digital warranty certificate
- Instant platform dispute & redo guarantee

TRANSACTION INTEGRITY

Smart Escrow Payments

- Zero upfront cash leakage
- Funds held in platform escrow during fix
- Released only upon customer verification

QUALITY & SAFETY

Certified Local Experts

- Multi-point KYC (GST, ID, Store audits)
- Reviews tied strictly to verified jobs
- Community trust & skill scoring

How FixGrid Works: From Broken to Fixed in 4 Steps

A seamless, friction-free journey engineered for total customer peace of mind

01

Discover Nearby

Browse verified repair shops on an interactive map filtered by warranty floor and ratings.

02

Upfront Quote

Receive transparent diagnostic & repair estimates with zero hidden fees.

03

Escrow Booking

One-tap UPI booking. Payment is locked securely in platform escrow during work.

04

Guaranteed Fix

Device returned fixed, digital warranty active, funds released to technician.

Empowering Local Technicians, Not Exploiting Them

Aligning marketplace incentives so independent shops earn more on-platform

✗ The Aggregator Trap (Urban Company / Directories)

- 25%–30% heavy commission deductions
- Technicians treated as disposable gig workers
- Aggressive pay-per-lead bidding wars with 0 guarantee
- No direct customer relationship or repeat business

✓ The FixGrid Partner Model

- Low flat 5–8% platform take-rate
- 5% Cashback Rebate to shops on verified jobs
- Dedicated digital storefront & customer ownership
- Free parts inventory & scheduling workbench tools

Why FixGrid Wins: Direct Market Comparison

FixGrid bridges the gap between unvetted directories and expensive aggregators

Feature Matrix	FixGrid	Urban Company	Justdial / Local
Mandatory Warranty	✓ 30–90 Days Guaranteed	✗ Unclear / None	✗ None
Payment Security	✓ Smart Escrow Hold	⚠ Full Upfront Charge	✗ Unprotected Cash
Technician Incentive	✓ 5% Cashback Rebate	✗ 25–30% Heavy Cut	✗ Costly Lead Bidding
Pricing Transparency	✓ Upfront Fixed Quotes	⚠ High Markups	✗ Random Haggling
Shop Verification	✓ Multi-Point KYC & Badging	⚠ Generic Contractors	✗ Zero Vetting

MARKET OPPORTUNITY

A Massive \$15B+ Untapped Market in India

The circular repair economy is surging as device prices rise and replacement cycles lengthen

\$15.2 B

TAM — Total Market

India's unorganized gadget & home appliance repair market (800M+ smartphones, 150M+ laptops).

\$3.4 B

SAM — Serviceable Market

Urban gadget, laptop, and consumer appliance repairs across Tier-1 and Tier-2 metro hubs.

\$350 M

SOM — Beachhead Target

Initial wedge: Smartphone screen replacements and laptop chip diagnostics in top 5 metros.

Monetization: Multi-Stream Sustainable Revenue

High-margin transaction fees coupled with recurring SaaS and B2B marketplace value

5% – 8%

Platform Take-Rate

Transparent convenience fee on completed bookings, snapshotted at checkout with zero hidden surprises.

₹999 / mo

Shop Pro SaaS Tiers

Monthly subscription for repair shops offering priority map ranking, verified badges, and parts inventory tools.

12% – 18%

Parts & Extended Warranty

Margin on B2B certified OEM spare parts fulfillment plus optional 6-month extended warranty add-ons.

A Complete Ecosystem Built for Every Stakeholder

Three fully built, operational applications delivering a seamless end-to-end experience

DISCOVER & BOOK

Customer Web App

- ✓ Interactive geospatial map search
- ✓ Real-time booking status tracker
- ✓ INR wallet top-ups via instant UPI
- ✓ Digital warranty claim manager

MANAGE & EARN

Technician Workbench

- ✓ Action-first job request queue
- ✓ One-tap status updates on the bench
- ✓ Parts & inventory tracking
- ✓ Gross revenue vs 5% rebate statements

ARBITRATE & SCALE

Operations Admin

- ✓ Multi-party dispute arbitration
- ✓ Bill approvals & rebate authorization
- ✓ Technician verification & audits
- ✓ Platform health & fraud telemetry

Championing Sustainability & The Right to Repair

Creating lasting economic dignity for local fixers while fighting the global e-waste crisis

Combatting the E-Waste Crisis

- Extending device lifespans prevents 4,200+ tons of toxic e-waste per 1M repairs.
- Promotes a circular economy by making repair cheaper and more reliable than buying new.
- Aligns directly with India's national Right to Repair mission.

Dignity for Local Micro-Entrepreneurs

- Uplifting thousands of informal neighborhood technicians into the digital economy.
- Providing reliable incomes, verified credentials, and digital payment tools.
- Rebuilding hyper-local community trust between neighbors and local repair heroes.

The Path Forward: From Hackathon to Scale

A phased, pragmatic go-to-market strategy built on density and network effects

PHASE 01

Beachhead Launch (Q1)

- Onboard 100 verified repair shops across Delhi-NCR
- Launch live UPI escrow booking & warranty tracking
- Establish direct technician support channels

PHASE 02

Ecosystem Expansion (Q2-Q3)

- Launch B2B certified spare parts fulfillment network
- Deploy automated WhatsApp booking & status bot
- Introduce extended warranty protection plans

PHASE 03

National Scale (Q4)

- Scale to top 15 Indian Tier-1 metro cities
- Enterprise IT device lifecycle repair contracts
- Franchise certification standards for local shops

FixGrid.

Let's Fix the Repair Industry Together

- ✓ Proven Market Gap: Solving repair anxiety with mandatory warranties and smart escrow safety.
- ✓ Win-Win Economics: Empowering independent repair shops with 5% rebates instead of heavy take-rates.
- ✓ Working Prototype: Three integrated applications fully operational and ready for demonstration.
